

RESNICK DESIGN & MANUFACTURING

A Subsidiary of Marble Designs, Ltd.

Over the years...

- Resnick Design & Manufacturing, a subsidiary of Marble Designs, Ltd. has been in business since 1988.
- The owner, Glenn Resnick, is a 3rd generation cabinet maker. The business started as Resnick Store Fixtures and was founded in 1922 by Glenn's grandfather. Although the name has changed over the years to better identify our products, the Resnick family ownership has remained steady. Today Resnick Design & Manufacturing still operates out of the same building Glenn's grandfather & father built.
- We fabricate products for both residential and commercial applications.
- We construct custom cabinetry of every kind. We are noted for built-ins, entertainment units, reception areas, work stations, computer cabinetry, display cases, buffet units, bedroom furniture, office tables, closet systems, kitchen and bathroom cabinetry.
